Subject: Compatibility of patented Novinium® Injection Adaptors with Tyco Electronics Components

To whom it may concern:

Novinium engaged NEETRAC to perform ANSI C119.4 tests on Novinium injection adaptors (IA's) installed on field-shortened connectors. NEETRAC has certified the performance of the Novinium modifications to the standard just as Tyco Electronics would have done.

When Novinium IAs are installed as per the Novinium IA installation instructions and templates, the IA compression connector assembly falls within the conductive insert of all Tyco Electronics medium voltage splices.

Tyco Electronics is not aware of any design disharmonies, which might occur from the combination of properly assembled Novinium IA's in Tyco Electronics medium voltage splices.

Tyco Electronics makes no warranties, expressed or implied, regarding the performance of Novinium technology when used in combination with Tyco Electronics medium voltage splices.

Sincerely,

Chad Eckhardt

Abe Shocket
