

Subject: Compatibility of patented Novinium® Injection Adaptors with Prysmian molded components

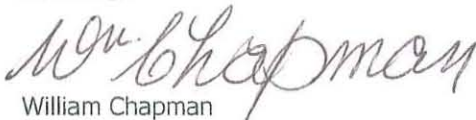

To whom it may concern:

Novinium engaged NEETRAC to perform ANSI C119.4 tests on Novinium injection adaptors (IA's) installed on field-shortened connectors. NEETRAC has certified the performance of the Novinium modifications to the standard just as Prysmian would have done.

When Novinium IAs are installed as per the Novinium IS installation instructions, the IA compression connector assembly falls within the conductive insert of all Prysmian medium voltage splices. Prysmian is not aware of any design disharmonies, which might occur from the combination of properly assembled Novinium IA's in Prysmian medium voltage splices.

Prysmian makes no warranties, expressed or implied, regarding the performance of Novinium technology when used in combination with Prysmian medium voltage splices.

Sincerely,

William Chapman
Product manager
