Cable Rejuvenation Buys Insurance

A submarine cable connection powers Anderson Island, but for how long? Tanner Electric plans ahead to avert a power outage and save costs.

By **Steve Walter**, *Tanner Electric Cooperative*

ANDERSON ISLAND IS A SMALL ISLAND IN SOUTH PUGET SOUND ABOUT 2 MILES FROM THE COAST near the town of Lacey, Washington, U.S. To read the full text of this article click on this paragraph.

Above right. Adaptors enable fluid to be injected into the cable.

Right. Predicted fluid injection times versus cable lengths.

Far right. Feed tanks provide a reservoir of fluid.
